

Have you heard about CARB's Criteria Pollutant and Toxics Reporting Regulation or CTR?

Your business may be subject to this new state regulation.

The first year of enhanced reporting under *Criteria Pollutants and Toxics Reporting Regulation* (CTR) occurs with 2022 emissions data reported in 2023. **For the air districts listed below**, facilities with backup generators, dry cleaners, metal finishing, solvent usage, or other specified permitted devices/processes are required to report emissions or activity information and other relevant data to their local air district, depending on facility locations and activity levels.

The deadline to submit data to local air districts is **May 1, 2023** (air districts may extend this deadline at their discretion). Call your local air district if you have any questions about submission procedures.

Sacramento Metropolitan Air Quality Management District (279) 207-1122, ext. 14
San Joaquin Valley Air Pollution Control District (559) 230-6000
San Diego County Air Pollution Control District (858) 586-2600
South Coast Air Quality Management District (909) 396-3660
Imperial County Air Pollution Control District (442)-265-1800
Bay Area Air Quality Management District (415) 749-4990

Please submit data to local air districts as soon as possible if you have not already done so. Submittals after May 1st may be considered late and may be subject to enforcement actions or financial penalties.

For questions and support regarding CTR reporting requirements and applicability criteria, please contact CARB's CRT team at ctr-report@arb.ca.gov or (279) 208-7865.
